📍 Gaya, Bihar, India

OBJECTIVE

Full Stack & Mobile Developer with hands-on experience building production-grade web, mobile, and AI-integrated applications. BCA final-year student seeking a first full-time or internship role where I can contribute to real products, learn from senior engineers, and ship fast.

EDUCATION

Gaya College, Magadh University

Gaya, Bihar, India

Bachelor of Computer Applications (BCA)

2023 – 2026

- Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP
- Built three production-grade software products while studying full-time

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, C

Frontend: React.js, Next.js 14, Tailwind CSS, Framer Motion, Three.js, HTML5/CSS3

Mobile: React Native, Expo, NativeWind, React Navigation, AsyncStorage

Backend: Node.js, Express.js, REST APIs, JWT Auth, bcrypt

AI / LLM: Gemini API, Ollama (local LLM), LiveKit, Vector Embeddings

Databases: PostgreSQL, Supabase, MongoDB, SQLite

Tools: Git, GitHub, Vercel, Postman, VS Code, Electron.js, Sentry

CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

ThinkEra | *Next.js, Node.js, PostgreSQL, Gemini AI, Framer Motion*

2025 – 2026

- Designed and shipped a full-stack DSA learning platform featuring an in-browser code editor with real test-case evaluation, replacing the need for an external IDE during practice.
- Integrated Gemini AI as a contextual mentor that provides targeted hints without revealing solutions, improving the learning loop for problem-solving.
- Built Pomodoro-integrated focus sessions tied to problem sets, combining productivity tooling with technical learning in a single platform.

VANI — AI Personal Assistant | *Python, Ollama, Gemini API, LiveKit, Vector Embeddings*

2024 – 2026

- Built an offline-capable AI voice assistant with a local Ollama LLM fallback, enabling full functionality without internet connectivity.
- Implemented smart command parsing to handle real-world tasks such as opening apps, setting reminders, and fetching weather, with an animated waveform visualizer for feedback.
- Achieved full cross-platform compatibility across web and desktop environments.

KRIYA — Productivity App | *React Native, Expo, TypeScript, SQLite, AsyncStorage*

2024 – 2025

- Shipped a habit tracker and Pomodoro timer app for Web, iOS, and Android using React Native + Expo with an offline-first architecture backed by SQLite — zero internet dependency.
- Engineered a streak system with celebration toasts and a 7-day animated progress dashboard, driving daily user engagement through behavioral design.
- Designed role-based UX profiles (Student, Developer, Medical, Teacher) to personalize focus sessions for different user types.
